COMMITTEE

Scientific Committee

- Dr. Ir. Sri Tadjono, MS. (*Diponegoro University, Indonesia*)
Dr. Ir. Tavio, MT. (*Sepuluh November Institute of Technology, Indonesia*)
Dr. Rr. M.I. Retno Susilorini (*Soegijapranata Catholic University, Indonesia*)
Dr. Ir. Antonius, MT. (*Sultan Agung Islamic University, Indonesia*)
Dr. Lado Riannevo Chandra, ST. (*National University of Singapore, Singapore*)

Honorable Committee

- Prof. Sudharto P. Hadi, MES, PhD. (*Rector of Diponegoro University*)
Prof. Dr. dr. Hertanto Wahyu Subagio, MS. Sp.GK. (*Vice Rector for Academic Affairs*)
Dr. Mochammad Chabachib, M.Si. (*Vice Rector for Financial Affairs*)
Ir. H. Bambang Pudjianto, MT. (*Dean of Faculty of Engineering*)
Dr. rer. nat. Imam Buchori, ST. (*Vice Dean for Academic Affairs*)
Ir. M. Agung Wibowo., MM., MSc., PhD. (*Vice Dean for Financial Affairs*)
Prof. Dr. Ir. Anita Firmanti, MT. (*the Research Institute of Human Settlement, the Ministry of Public Works*)

| Ir. Han Ay Lie, M.Eng. | Sujarwo |
| Ir. Arif Hidayat, CES., MT. | |

WELCOME ADDRESS

Dear Colleagues,

On behalf of the Committee, I am greatly honoured and pleased to welcome you to our International Seminar on Concrete Technology: Green Concrete Technology Innovation. Green concrete technology is a part of green construction, that is, a sustainable manner which aspires to create a construction from planning, implementation and use of products or materials that are environmentally friendly, use of energy and resources efficiently, and reduce construction cost significantly. To achieve this vision, an optimization of concrete material in the system is required by applying the basic principles of 3 R, i.e. Reduce, Reuse and Recycling.

In this seminar, many experts will talk about and share with us the development of environmentally friendly concrete technology and its applications in the construction world. There is no doubt that their lectures will bring us latest progress on the material and construction technology for the usefulness to the welfare of the human being.

For your information, this seminar is a part of the 55th Dies Natalis of Faculty of Engineering and the 56th Dies Natalis of Diponegoro University. Therefore, I would like to extend our thanks to Faculty of Engineering Diponegoro University for the support for the seminar. Also, special thanks go to our committees for their hard work for this seminar.

In closing, I encourage you all to participate actively in the interesting discussions in the seminar. I wish everyone a successful and fruitful seminar.

Best wishes,

Dr. Ir. Sri Tudjono, MS.
Chairman of the Organizing Committee

TABLE OF CONTENT

Committee	i
Welcome Address	ii
Table of Content	iii
 <u>Scientific Papers</u>	
<i>Innovative Use of FRP for Sustainable Precast Concrete Structures</i>	1
Sami RIZKALLA (North Carolina State University, USA)	
<i>Concrete Durability In Tropical Climate</i>	16
TAM Chat Tim (National University of Singapore, Singapore)	
<i>Sustainable Construction and Microwave Beneficiation to Improve the Yield and Quality of Recycled Aggregates</i>	27
K. C. G. Ong, A. Akbarnezhad, M.H. Zhang, C. T. Tam (National University of Singapore), T. W. J. Foo (Ngee Ann Polytechnic, Singapore)	
<i>L-Shaped Steel Collars: An Alternative External Confining Retrofit for Improving Ductility and Strength of Rectangular Concrete Columns</i>	36
Tavio, P. Pudjisuryadi, and P. Suprobo (Sepuluh November Institute of Technology, Indonesia)	
<i>Designed for Disassembly System for Sustainable Precast Construction</i>	51
Lado Riannevo CHANDRA, Khim Chye Gary ONG, Ali AKBARNEZHAD, TAM Chat Tim (National University of Singapore, Singapore)	
<i>Virtuous Concrete: Concrete Technology Innovation for Carbon Footprint Reduction</i>	62
Rr. M. I. Retno Susilorini (Soegijapranata Catholic University, Indonesia)	
<i>Flyslab Smart Solutions for Multistorey Buildings</i>	69
Sulistiyana (PT. Kinarya Beton Indonesia, Indonesia)	
<i>The Interaction of the Constitutive Parts of Concrete</i>	75
Muhammad Sahari Besari (Institut Teknologi Bandung)	
Sponsorship Thank You Page	88
